

Miss^{rs} Handicks & Brothers
New York
Feb 11th 1811

Dear Sir -
Please inform me you
must cast fire in a distill bottom about
the size and thickness of the one I purchased
of you last summer - I hope you will
be able to let me have it something less than
you charged me for the last - Please
inform me the thickness of the bottom
I bought of you last summer - you will
probably find a memorandum of it on your
note at the time I ordered it - I have
about 1000th old copper two still bottoms
amongst the lot that will weigh about
600th - Please inform me the most you will
give for it in New York

Most respectfully
Yours Obedt^{ly}
Jas^{rs} Vining
